

Automate
to eliminate
paper forms

Customize
message content
and displays

Track
compliance and
performance

Simplify
auto-populated
message fields

Streamline fleet communications.

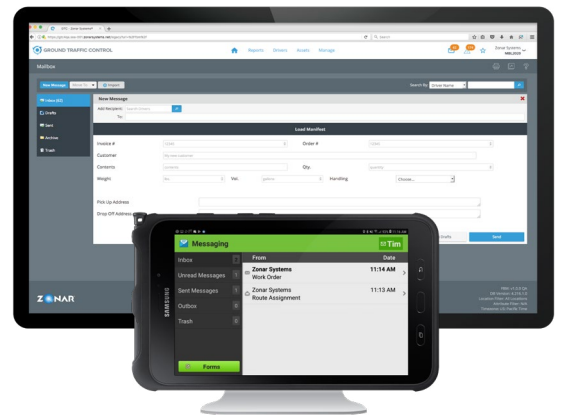

Replace paper forms, share route dispatch assignments and improve communication across your fleet. Used with Zonar Ignition™ and Zonar tablets, Zonar Forms™ makes mobile messaging simpler, faster and more efficient.

Digital health questionnaires for drivers and operators

Drivers can complete a quick health questionnaire using the Employee Symptom Checker on their tablet. Each submission is time-stamped and securely uploaded for recordkeeping, giving authorized personnel online access to view results—no shared contact points required.

Customize a solution.

Work with us to build a Zonar Forms solution tailored to your operation. Whether you need a fully customized application or small adjustments to existing templates, we'll make it happen.

Customer Support
