

# Track & manage almost any asset. All together. Across sites.

## Utilization

### Ground Traffic Control®

Track where they are. Where they've been. Their time onsite. All in one fleet management platform.

### Zonar V4™ or V4R™

Track assets in real time. Pinpoint locations, even between sites. See every start, stop, turn, brake, idle & PTO event, as they occur.

### Zonar LD™

Track light-duty vehicles with an easy-to-install OBDII plug-and-play device.

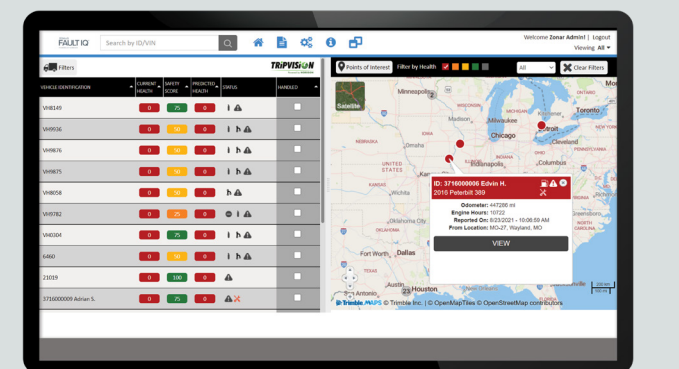

### Zonar ZTrak™

Track assets & equipment with an unassuming, rugged tracking device.

## Cost Savings

### Zonar FaultIQ®

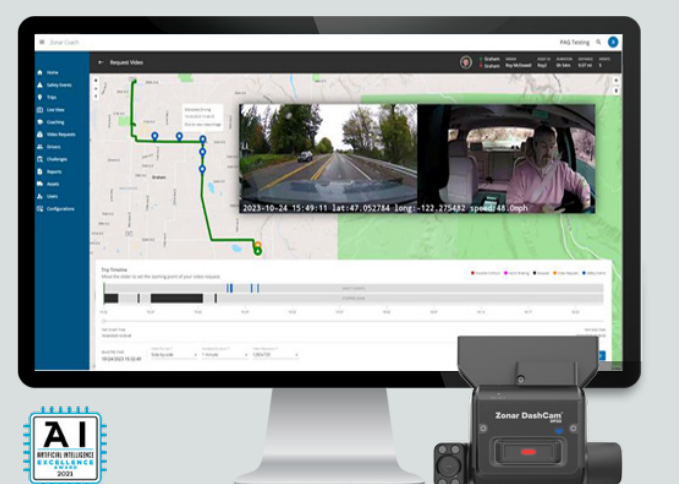

View & predict fault codes, as well as their impact to CSA scores, fuel economy & emissions. All major vehicle components, all manufacturers.

### ContiConnect Live Integrated

Remotely monitor each tire's temperature & pressure.

## Driver safety

### Zonar Coach™

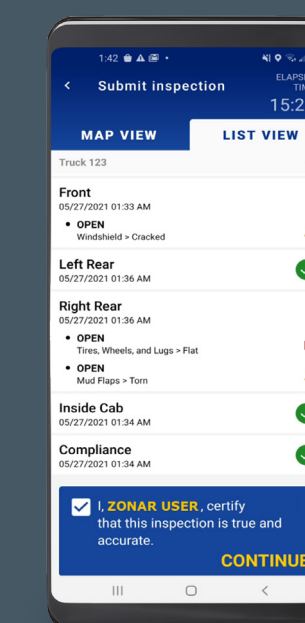

Protect drivers with AI-detected safety events. Build a world-class safety program. Guard against nuclear verdicts with on-demand footage.

## Safety • Maintenance • Compliance

Eliminate paperwork with fully customizable electronic inspections.

Customizable DOT, OSHA, and MSHA compliant Verified inspections for on-road, off-road and fixed assets.

Integrate with popular maintenance platforms to streamline work order processes.
