

Save
time processing
reports

Reduce
liability with
precise data

Reclaim
miles and
tax refunds

Ensure
accurate vehicle
inspections

Increase fuel tax savings with intelligent compliance.

Enhance your fleet operation.

Automatically capture precise vehicle and fleet data, reduce vehicle inspection reporting and hours of service (HoS) paperwork processing times. Plus, more easily reclaim IFTA

and/or IRP and PTO fuel tax refunds with confidence. All with the Zonar-Fleetworthy integration.

Together, Zonar and Fleetworthy help you avoid manual data collection processes and fees, proactively lower audit risk and fines, streamline reporting, and realize potential substantial savings in fuel tax reporting and reimbursement.

- Save administrative time processing inspection reporting data, HoS logs and IFTA/IRP.
- Reduce audit liability with electronic GPS and historical data.

- Potentially reclaim substantial off-road miles and PTO fuel tax refunds.
- Ensure accurate pre- and post-trip inspections.

How it works

Through its onboard telematics control unit (TCU), rugged driver tablet and Electronic Verified Inspection Reporting (EVIR®) solutions, Zonar's technology accurately captures required pre- and post-trip inspection results, vehicle location, mileage, HoS, performance data and more.

Fleetworthy's CPSuite uses real time data collected from Zonar. This next generation of compliance intelligence rationalizes and displays data via an online dashboard. The process is streamlined for reviewing, analyzing and making key data available to the user.

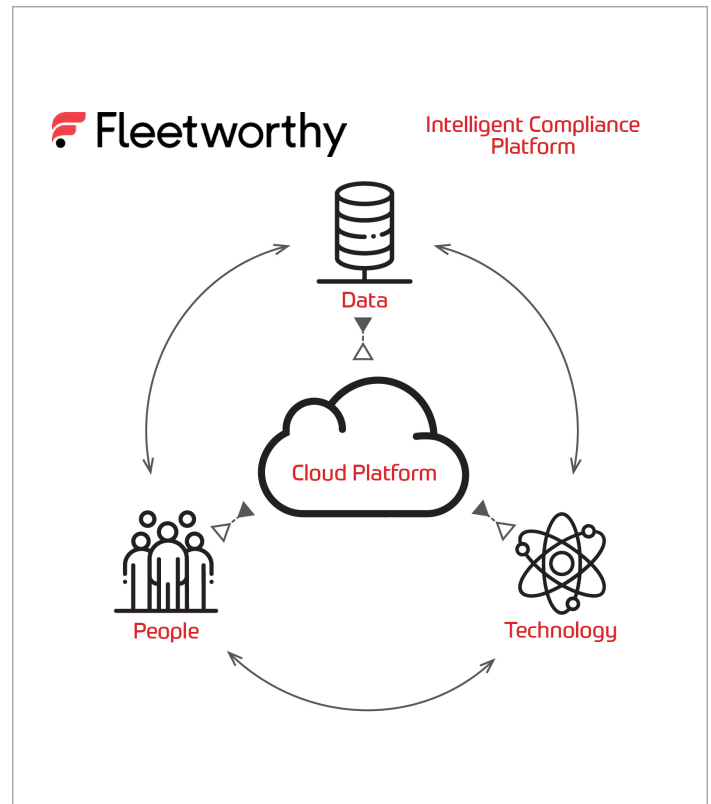

CPSuite provides a new Automated Compliance and Evaluation System (ACES) that runs 24/7, evaluating all assets, people, files and data. All to save your organization valuable time, money and resources. Plus, provide actionable insight and additional confidence in the event of an audit.

DOT risk management and safety compliance data

DOT risk management and safety compliance data is added to your compliance dashboard and available immediately to review.

IFTA/IRP reporting and reimbursement

Data required for necessary fuel tax reporting and reimbursement is analyzed to ensure the data meets necessary IFTA and IRP reporting requirements, before being electronically readied for quarterly claims.

About Fleetworthy Solutions

Fleetworthy Solutions, Inc. provides DOT safety and regulatory compliance services to commercial fleets that take them beyond compliant. Fleetworthy combines exceptional client service, advanced technologies, and more than 35 years of transportation industry expertise to make sure that drivers and assets are truly *fleet worthy*. The company helps private fleets, for-hire carriers and third-party logistics companies of all sizes surpass compliance of federal, state, and local regulations and streamline processes to reduce costs and mitigate risks.

About Zonar

Founded in 2001, Zonar has pioneered smart fleet management solutions throughout vocational, pupil, mass transit and commercial trucking industries. Headquartered in Seattle and part of the Continental family, Zonar's mission is to enhance the safety, performance and success of our customers by transforming the delivery of innovative insights for commercial fleets around the world.
