

Manage
all facets of
DOT regulations

Avoid
costly violations
and fines

Eliminate
error-prone
paperwork

Centralize
documents and re-
cords

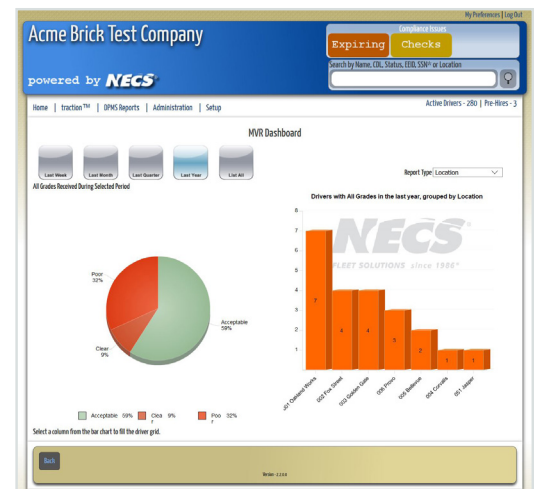

Ensure driver and DOT compliance across your fleet.

Streamline, digitize and centralize.

The Zonar and NECS partnership brings together proven ELD and Electronic Verified Inspection Reporting (EVIR[®]) solutions, plus expert consulting teams, driver qualification file management tools and driver behavior insights, for a complete DOT compliance solution.

Zonar solutions make ELD and vehicle inspection compliance easier for you, your drivers and law enforcement officials. And digitizes the entire process to eliminate cumbersome paperwork.

- Remotely verify that every required vehicle inspection is performed properly, and that the results are captured accurately using EVIR.
- Ensure and manage ELD compliance using Zonar's proven Zonar Logs[™] hours-of-service application, which automatically updates with the latest regulations.
- Gain peace of mind knowing your fleet is fully DOT-compliant with the Zonar vehicle inspection and driver log data captured in the NECS system.

| Monthly CSA Score | | | | | | | | |
|-------------------|------------------|----------------|-----------------------------------|---------------------|-------------------------------------|-----------------------|-----------------|---------------|
| DOT# | Unsafe Driving | Driver Fitness | Hours of Service (HOS) Compliance | Vehicle Maintenance | Hazardous Materials (HM) Compliance | Controlled Substances | Crash Indicator | Snapshot Date |
| 10101 | 14.4% 114 pts | 8.1% 32 pts | 4.7% 83 pts | 80.9% 379 pts | 0.0% 35 pts | 0.0% 0 pts | 0.0% 0 pts | 6/21/2013 |

Seamlessly follow complex, changing regulations.

Eliminate paperwork, stay abreast of missing or expired documents, and avoid costly fines with NECS compliance services. NECS can help you navigate and understand the ever-changing complexities around driver safety and compliance regulations. Plus, NECS eliminates the guesswork and manages all facets of DOT regulations—from in-house, professional DOT agents to a proprietary driver qualification (DQ) management system.

Ensure effortless driver compliance.

Using NECS's proprietary cloud-based system, fleets have online access to all driver files, motor vehicle records and more, providing a virtual file cabinet of DQ documentation accessible anywhere, anytime—24/7/365.

- Import regulated driver certifications such as commercial driver's licenses (CDLs), medical cards, motor vehicle records, certificate of violations, annual reviews and more, for a complete electronic driver file.
- Store and track driver qualification files all in one place.
- Create automated alerts to identify and stay on top of missing requirements such as CDLs coming due, medical cards and motor vehicle records (MVRs).
- Ensure immediate access during an audit to the most updated, complete driver records and certifications, avoiding costly fines for missing or incomplete paperwork.
- Use NECS's system to adjudicate MVRs, provide insight into Compliance, Safety, Accountability (CSA) data, and track driver file compliance for a comprehensive view of a driver's safety score.

*Tax recovery options vary dramatically by state.
