

State & local fleet transportation management

People depend on you. Depend on your fleet.

Enhance fleetwide reliability, extend asset lifespan, and reduce costs. Plus, maintain a positive relationship with the public. Use a modern smart fleet solution built to monitor every fleet vehicle, on one platform, across agencies and departments.

State and local government fleets serve the public while operating under regulations, budgetary considerations and service level agreements that materially impact operations and performance. Equip your fleet with modern, innovative smart fleet management solutions by an industry leader who understands your real-world challenges, big and small.

Know where each vehicle is, what it's doing and how it's performing, so you can deploy it where it's most needed. Use that same data to investigate public concerns and exonerate safe drivers. Prevent unplanned downtime and save thousands in critical repair costs through proactive and predictive remote diagnostics, as well as electronic inspection reporting. All on a single, mobile-friendly platform that puts fleet data at your fingertips—even when you're in the field.

Round-the-clock support, on us.

If you need help, call our support professionals 24/7/365, including weekends and holidays. Email us for a response and resolution within 2 business days. And chat with us online for a solution within 4 hours.

No charge.

Equip your fleet to work smarter, from its data up.

Zonar Ignition™

Make data-based decisions with detailed visibility. Monitor and manage your entire fleet online, on your desktop, tablet and smartphone. Any size fleet, any mix of vehicle types.

Zonar V4™ TCU

Track vehicle location, performance and health in real time. See where and when every start, stop, turn, brake, idle and PTO event occurs, as it occurs.

Zonar Logs™

Accurately and easily track on-highway Hours-of-Service (HoS) for greater compliance. Manage hours online, in detail. And enable drivers to easily manage their hours on their tablet.

Driver tablets

Expand driver capabilities and streamline daily tasks, including inspections. All with a library of Zonar and trusted third-party mobile apps that digitize workflows.

Zonar ZTrak®

Track assets wherever they roam, including into extreme temperatures, rain, sleet and snow. Ideal for dumpsters, equipment, signs and just about anything else.

Advanced Navigation

Every minute and mile count. Parking, breaks, meals—equip drivers to plan their best route, on their tablet. Even down to their available hours before reaching HoS limits.

EVIR®

Electronically verify that every required vehicle inspection is performed properly. Comply with DOT and OSHA regulations. Available on tablets and smartphones.

Zonar LD™

Plug it into a light-duty vehicle's OBD II port, and track location, usage, idling, PTO, I/O, speed and location. Installs in minutes. No special tools.

What would you like to track or monitor?

Electronically verify every inspection.

Electronically verify every inspection.

One pencil-whipped miss can cause an accident, make your fleet vulnerable to litigation, and possibly damage your relationship with the communities you serve. Use our electronic verified inspection reporting (EVIR) system to make sure each required inspection is performed correctly, and the results are captured accurately.

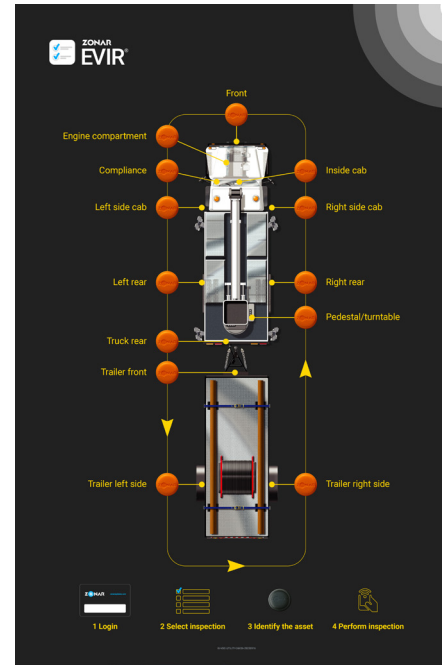

- Place a Zonar tag on each inspection zone of the vehicle or piece of heavy equipment.
- Drivers and operators must physically scan each tag when they inspect that zone.
- As they perform the inspection, they mark defects, add notes and capture photos.
- When the inspection is complete, the results are uploaded to Zonar Ignition.

They can also use the downloadable EVIR app on their tablets and smartphones to inspect tagged and tagless, temporary items such as rental or leased equipment or vehicles. Available on the Google Play Store and Apple App Store.

Takes half the time of paper-based inspections. And EVIR inspections are truly verifiable.

Integrate with your maintenance platform for more uptime.

Integrate EVIR inspection reports with your maintenance platform so major defects are prioritized and addressed sooner, not later. Faster reporting, prioritization and resolution—together, they deliver more uptime. And with fewer human errors.

Make high performance standard.

Remote diagnostics

Access fleet health reports in Ignition for the data to keep each fleet asset in safe, peak condition.

Zonar ZFuel™

Find opportunities to run more efficiently on less fuel. Look at more than just MPG to view real-world usage, even in harsh environments. Protect against excessive idling and fuel theft.

Leading OEM partnerships

Drive down your TCO with factory-installed telematics devices and remote diagnostics data collection, from the start—as the vehicle leaves the factory. Rich data, deeper insights, longer-running vehicles.

Zonar FaultIQ®

Predict and prevent downstream issues to save thousands in critical repair costs. Decode faults into plain speak, see all fault data, and receive expert guidance. All vehicle makes, models and major components—on one screen.

ContiConnect Live Integrated

Monitor each tire's pressure online, regardless of the vehicle's location. Keep each tire healthy to save fuel, enhance safety and increase your ROI through a longer lifespan.

What would you like to track or monitor?

Fully supported solutions enable nearly 100% FEMA recovery reimbursement.

"Zonar supports its products 100% after the initial sale, which is huge. We've had a lot of companies who, once we've bought in, are non-existent. Zonar is still there for us."

Mike Stevens
Fleet Services | Kootenai Electric Cooperative

Monitoring on-the-fly fleet assets.

"What gets measured, gets done is our motto. Zonar helps us to do this."

Trey Bowen
President | Superior Bowen Asphalt

Prioritize proactive fleet health.

Save thousands in critical repair costs.

Zonar FaultIQ

Zonar FaultIQ, powered by Noregon, is an all make, all model, all component diagnostic software for predicting faults before they happen. Decode faults quickly, and prioritize and schedule repairs to keep medium- and heavy-duty vehicles rolling longer.

- See a snapshot of your entire fleet on a single dashboard.
- Monitor Health and Safety Scores for each vehicle, color-coded based on severity.
- Trust recommended action plans based on input from ASE-certified technicians.

Need an off-the-shelf solution? Let's build it.

API integrations

Many state and local government fleets are mixed, including passenger vehicles as well as sophisticated, specialized assets such as snow plows and waste collection trucks. If you need additional insights not currently available in our off-the-shelf solutions, let's put our heads together to extend our platform and optimize your operations. Work with our in-house development experts to develop custom reports, real-time data streams and customized projects.

Our standardized delivery process eliminates roadblocks and delays, so your custom services are up and running as quickly as possible.

Make compliance easier for everyone.

Work with experts who understand safety and compliance.

You know your fleet's regulations and procedures. Now work with safety and compliance experts to make compliance less vulnerable to human error.

- Modernize fleet tools and workflows to better support applicable regulations.
- Verify that required inspections are performed and records are properly maintained.
- Comply with regulation changes faster with solutions that are updated based on our experts' insight and input.

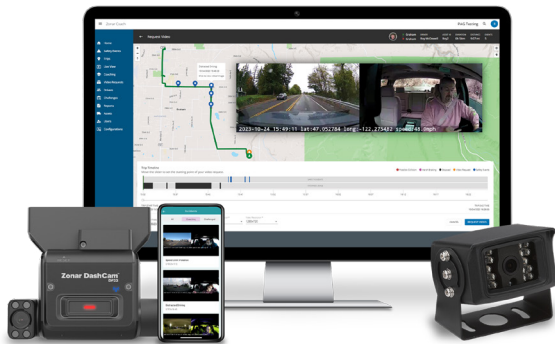

Protect against false claims. Maintain public relations.

Incidents involving one of your fleet vehicles come under intense, sometimes public, scrutiny. And cost taxpayer money to resolve. Zonar Coach™ features a smart, dual-facing HD dashcam that detects eight key unsafe behaviors. And captures on-demand footage that shows what happened minutes before and during the event.

- Protect against false claims and nuclear verdicts by quickly exonerating drivers.
- Appropriately answer complaints with vehicle data and on-demand footage.
- Resolve incidents faster and reduce legal expenses to minimize budget spend.

Meet your eyewitness with more angles.

Add an external-facing, plug-and-play camera to the side or rear to capture more, from more angles. See sideswipes, review rear accidents and confirm if a customer's trash was collected. Installs directly with the vehicle's Zonar DashCam device.

Trusted by industry leaders.

Rich data for International® Trucks, delivered.

Pair International's renowned series of vehicles with our comprehensive data sets for unparalleled vehicle monitoring and maintenance. Use their all-make advanced remote diagnostics solution, OnCommand® Connection, to access comprehensive diagnostic data pulled through the Zonar TCUs across your fleet.

- Access comprehensive diagnostic data pulled through the Zonar V4.
- More efficiently manage your International Trucks from the inside out with rich diagnostic data.

Two sets of expertise to hear what your Daimler trucks are telling you.

Daimler's best-in-class design combines our innovative analytics hardware and software to transform how you keep vehicles working hard and earning strong. Detroit Connect® Virtual Technician® records before, during and after a fault occurs, giving Detroit engineers a 360-degree diagnostic view to interpret. Standard on select Freightliner and Western Star vehicles.

Lower costs, enhance safety.

Working with our Daimler partners, our proven OEM telematics platform has been extended to enable the Detroit Connect® platform with their Analytics service. Use this critical fuel and safety insights to cut costs and improve safety for your Daimler vehicles.

About Zonar

Zonar exists because you deserve better. Student transportation fleets trust us to protect our nation's children every day. Now, we're the trusted leader and clear choice for small to mid-sized businesses, enterprise fleets, and public sector organizations across the Americas. To some, you're one of a million. To us, you're the one in a million. Our proven fleet management solutions help you run better, safer and more efficiently. We help you save more of everything. We work late, push harder and deliver what's needed, faster—for you.

You might not get fired for choosing someone bigger or shinier. But when there's a surprise, you'll want the one who picks up and shows up to help. You call? We answer, 24/7. Whatever size, mix or industry your fleet is, we move at your speed to help solve real-world problems.

Zonar HQ: Seattle, WA. Other locations: Cincinnati, OH, West Chicago, IL & Lakeland, FL. Top priority: You.
